

Artificial Turf & Paver Installation Without the Rock!

Genesis Eco Drain® saves you time and money by eliminating the need for crushed rock in both artificial turf and paver applications. A single roll of Eco Drain® is the equivalent of over 10,000 lbs of crushed stone, saving you a minimum of 6 inches of additional excavation. Genesis Eco Drain® drains water both vertically and horizontally at over 165 gallons per minute. It is made from lightweight, high-density HDPE making it fully recyclable and environmentally friendly. Genesis Eco Drain® is extremely durable with both 11,000 and 18,000 psi options. It will not degrade or lose integrity over time making it the perfect base rock replacement!

Experience That Matters

With over 25 years of collective experience in the synthetic turf and paver industry, Genesis Eco Drain® has the most experienced team in the industry, and we recognize the need for continued development in installation and drainage needs. Our mission is to help you grow your artificial turf and paver business by helping reduce the time and cost spent on your typical installations. Our mission is to help your business succeed by offering drainage solutions that increase your revenue while reducing your liability and wear on machines and crews.

Genesis Eco Drain®

RECYCLABLE DRAINAGE SYSTEM
FOR USE UNDER ARTIFICIAL
GRASS AND PAVERS

What Is Genesis Eco Drain®?

The Genesis Eco Drain System® is a patented, recyclable HDPE drainage system for use under artificial grass and pavers as an alternative to traditional rock base. It can be installed on almost any surface, and provides a solid and comfortable foundation along with superior drainage for any artificial turf or paver product.

The Genesis Eco Drain® System was designed to revolutionize the way artificial grass and pavers are installed and increase artificial turf lifespan. The first product of its kind, Genesis Eco Drain® eliminates the need for traditional installation materials and allows for a full warranted surface!

Genesis Eco Drain® Benefits

Our patented Genesis Eco Drain® System vastly improves the installation process by simplifying the groundwork and preparation needed. Imagine artificial turf and paver installations that used to take 10 days now competing in 4!

Genesis Eco Drain® offers:

- Base Rock Substitute That Significantly Reduces Installation Time
- Dual Layer Eco Filter Fabric for Increased Performance
- Industry Leading 165 Gallons Per Min Drainage Capacity
- Industry Leading Warranty & Life Span
- Perfect for Landscapes, Rooftops, Playgrounds, Pavers, Pets Areas, Putting Greens & Sports Fields
- Dramatically Reduces Amount of Groundwork Needed
- Significantly Reduces Onsite Liability
- Reduces Wear & Tear on Machines & Crew
- Industries Highest Load Capacity
- Made in the USA of Recyclable HDPE

ARTIFICIAL TURF INSTALLATION COST
